**Robyn Ludwick** delivers a set of soulful originals full of passion and breadth in the aptly titled *Too Much Desire*, showcasing older brothers Bruce and Charlie **Robison** as well as grammy nominee and Austin Sweetheart **Eliza Gilkyson** on selected tracks.

As the title suggests, with *Too Much Desire* is how Robyn writes and how she sings, and you will believe her, experientially. From the seductive, Fleetwood Mac-esque opening track "Alright" to the folk/pop edge of "Big Fall" and "Boulevard," slipping into Texas crowd favorite "Monte Carlo" and on to the rocker "Desire," the album resonates with bad girl imagery -- and *Too Much Desire* is the common thread among the front-and-center females, Robyn, et. al.
